Good Monday Run and Demand Strong.

TOPS REST ON \$3.62 1-2

Cattle Steady, Good Receipts and Grades Mixed.

The Wichita hog market yesterday ruled Steady, with varying conditions of affairs a cur of very fair medium light hogs, through the day. The early part of the selling for close to top prices. day was dull, there being a very light with a car load of mixed hogs, selling to Dold and Bennett, the Dold load taking line of receipts in and the absence of a session of the Chicago Board of Trade next to top prices.

Jim Bosley of Clearwater was in with made trading rather precarious, so far as the first part of the day was concerned. a car of mixed cattle, 20 head of steers, large margin, while in a number of state This condition held this way until about cows, beffers and calves. They were all time to close, when reports began to sold early to various buyers. come in from nearly all the roads of hogs ius to arrive consigned to this point. Itwas long after dark when the last of the car hogs were weighed u pand transferred, but all interests were present and the stock ably taken care of. The demand was trong all day, the local packing interest being on the market for all butcher hogo obtainable. Dold bought freely, in fact was the only bidder for fat and heavy hogs, suitable for immediate slaughter, and the Bennett order was also in for any and all light and young stock hogs. The receipts were very good, even for Monday at least for several Mondays of late. The total number of hogs received and sold were ahead of Saturday, the same day last week and the same day last year. It was unlooked for that yes terday should show up a very flattering line of offerings and though they mostly little jobbing trade.

Buffalo Dally Mercantile Review: The came in late, nevertheless they were all readily taken and at prices fairly steady weaker western reports of the hog mar-kels gives strength to the generally exwith Saturday's average and in line with all other western markets. The weight was generally good, it being 16 pounds heavier than on Saturday and just the same as Monday of last week. Other markets reported only steady and a tendency to lower tone. There was no pro-vision market, owing to the day being legal holiday, celebrated as such in most of the big live stock centers. The top yesterday was within 214 cents of the top for Saturday, and no hogs were offered hogs received during the corresponding period last year. These figures show this so good as the bulk of the sale hogs Sat-urday. While the weight yesterday was noticeably heavier, and more heavy hogs came in, the lots were generally mixed more or less with coarse and rough stock, and packers running in with the better grades. There were very few lights of-fered, the tendency being the other way. As for well finished and evenly running plump hogs, these were not so much in evidence as on Saturday. All hogs offered etc., being hogs to suit the market! If the market wans bacon hogs and wants them bad enough to pay for the change, we will furnish them quick enough right from among the Poland-Chinas, Nor will were sold, and without any blekering, and would have found an equally ready It was in all a very satisfactory Monday, and the prospects are good for a continued attractive run today.
